Your digital day

I want to share my digital day with you.

I always start my morning by checking my phone. I usually have three or four messages from my school friends.

At breakfast, I often use my tablet to search for news. I never eat without looking at something on my screen. It's not a good habit.

At school, we sometimes use the smartboard in our science class. Our teacher shows us amazing videos about animals and planets.

We use computers in computer class twice a week.

After school, I do my homework using my laptop.

In the evening, I sometimes play online games with my friends.

Before bedtime, I often read ebooks on my tablet.

Using technology is amazing but we should use it wisely.

Digital tools you use daily

A

Every morning , I wake up and check my phone.

I read the news, reply to messages, and check social media.

C

At school, our teacher uses a smartboard to help us understand our lessons.

We use computers at the computer class.

B

At home, I play games on my tablet.

I do my homework on my laptop, then I print it using the printer.

Before bedtime, I read a story on my tablet.

I know I use technology too much, but I think it helps me learn faster and stay connected.

My favorite devices when using technology

I use many digital devices every day to achieve my tasks.

I always do my homework on the computer. I use my keyboard to write my assignments. I also use the mouse to move around the screen and click on things.

When I watch videos or listen to music, I use my headphones or speakers.

I use the webcam to make video calls with my friends online.

I use my microphone to record a presentation for class.

At school, my teacher uses a smartboard to show us pictures, videos, and notes.

At the end of the day, I print my homework using the printer. It's super helpful.

My favorite learning style

Every person learns differently.
There are different learning styles.

Some people learn best by
seeing information.
They are visual learners.

They like to read books,
look at pictures, and use
colorful notes. They use maps
and charts to organize information.

Other people learn best by
hearing information.
They are auditory learners.

They like to listen to music
while studying.

My favorite learning style is
kinesthetic style. I learn best by
moving and touching. I like to do
experiments and use hands-on activities.

Understanding your learning style
helps you study better.

Learning plans

A

I want to improve my English,
so I have a plan.

B

I use learning styles when
I study at home and at school.

In English class, I try to sit
at the front to see the board clearly.

To practice writing, I write 3 - 5
sentences each day about what I did.

I record my voice to check
and correct my pronunciation.

C

Sometimes, I record videos to help me
learn better when I listen and see at
the same time.

Now, I am practicing vocabulary anywhere .

I always talk to my friends in English.

We like to draw diagrams to remind us.

How teamwork develop your skills

A

Teamwork and learning in groups have more benefits than learning alone.

When students learn in groups , they share opinions , discuss problems and find solutions.

Teamwork helps students develop their skills and be confident.

It also helps them how to communicate with others.

B

When a student shares their opinion about a topic, they learn how to express themselves freely.

Teamwork teaches students cooperation and leadership.

It helps them to be creative thinkers.

Learning with others also helps students to make new friends.

Modern technology makes group learning very enjoyable.

A An important decision you made

I was excited about my birthday party.

I planned for a small party and invited eight responsible close friends.

Two classmates wanted to join the party.

There weren't close to me and one of them was careless in class.

I faced a difficult decision. If I let them come , the party may become too big. And if I say no , they may feel left out.

I thought about the positive and negative sides of each choice.

In the end, I made a wise decision. I explained that the party was only for close friends who had behaved well.

They understood and promised to improve.

I was proud of my decision.

A difficult situation you faced

Last year, I faced a problem before a big race.

I injured my foot during training.

I had to choose between taking a risk and taking part in the race, or resting and missing it.

That was hard, but I used problem-solving skills.

I talked to my coach. We discussed the possible consequences .

Then, I decided I shouldn't run. It was a wise decision.

The impact was positive because I recovered, and I won the gold medal in the next race.
